

OBJECTIVE

As a web designer and developer, my objective is to make a positive impact on clients, co-workers, and the Internet using my skills and experience to design compelling and attractive websites. I enjoy working on projects that involve a mix of web and graphic design, web development, database management and programming.

My interest in web development. Over the last 7+ years, I have developed a wide range of websites using HTML, HTML5, WordPress, Joomla, Magento and Core PHP including sites for startup companies and small businesses. My core competency lies in complete end-end management of a new website development project
